

Quality Assurance and Research Technician

Our Company

Genesis Health Light Corporation is a Canadian owned company that has introduced the world's first truly portable light therapy medical device. As a rapidly growing organization, we offer a unique opportunity for personal and career growth. Genesis Health Light Corporation is currently seeking a talented, detail oriented, and highly motivated individual to join our dynamic team in the following capacity.

Description

As a Quality Assurance and Research Technician for Genesis Health Light Corporation, you will ensure that each Genesis unit adheres to our strict ISO standards, compile weekly quality reports, continuously identify efficiencies to existing designs of medical devices, utilize a materials engineering background to seek new materials that would improve the Genesis design, develop and conduct production, inventory, and quality assurance programs, and design plant layouts and production facilities.

The Quality Assurance and Research Technician will report directly to Executive VP, Timothy Fung.

Responsibilities

- * using a material engineering background to seek new materials that would improve the Genesis design
- * develop & implement quality control and customer service policies, standards and procedures
- * improve quality and reduce defects
- * arrange shipments
- * ensure lab is in satisfactory working condition
- * increase efficiency/find efficiencies in production by developing and refining new quality testing standard operating procedures
- * manage lab and inventory using Fishbowl Inventory Management software
- * track sold units, updating database with device statuses, situations, and customer information
- * annual ISO auditing of Medical Devices Certification and Quality Management System Certification
- * develop and implement less expensive production methods while ensuring quality products

Attributes

- * Minimum: Graduate of Materials Science or Materials Engineering Bachelor degree
- * Minimum: 2 years experience in designing QA policies for medical instrument manufacturer
- * Experience in medical device testing, quality assurance and quality improvement
- * Mandarin language required for communication with manufacturing facility

Characteristics

- Task oriented
- Target driven
- Detailed Oriented
- Ability to work independently and as a team

- Motivated and dependable
- Strong interpersonal skills
- Willingness to do what it takes to get the job done

Resumes along with a cover letter should be submitted to HR@genesishhealthlight.com

Genesis Health Light is an equal opportunity employer. We embrace diversity in our people, products and ideas. We thank you for your interest. Only candidates selected for an interview will be contacted.
